Graduate Council Resolution in Support of Accelerated Master's Guidelines and RME Format

Whereas, the ability to count 9 credit hours of graduate-level course work toward both an undergraduate degree and a Master's degree allows for Accelerated Master's programs that require just 21 credit hours of graduate-level course work beyond the undergraduate degree (instead of 30 hours),

Whereas, several Accelerated Master's programs, have already been approved and more are expected to be proposed,

Whereas, it is advantageous to have Accelerated Master's programs adhere to uniform standards,

Whereas, Dean Lee and Associate Provost Allen (with input from Provost Ford) have drafted guidelines for such programs,

Whereas, these guidelines are understood to apply to only future Accelerated Master's programs, and will have no impact on current and already approved programs (including Concurrent Master's Degrees programs),

Whereas, these guidelines are understood to not preclude other types of combined, dual degree, or concurrent degree programs,

Therefore, be it resolved that the Graduate Council expresses support for the Accelerated Master's Guidelines and RME Format submitted to the Council by Dean Lee, with a name change modification to "GUIDELINES AND RME FORMAT FOR ACCELERATED MASTER'S PROGRAMS AT SIUC."
